

THINK RUBBING MY NOSE IN IT HELPS!?

WHY DON'T YOU TEACH BABY HUMANS THIS WAY?

STUDIES INDICATE PUNISHMENT DAMAGES TRUST & RELATIONSHIPS FAR MORE THAN IT CHANGES BEHAVIOR.

THIS IS A GREAT WAY TO TEACH ME TO HIDE OR EVEN EAT POO!

IF IT WORKS, WHY DO YOU HAVE TO KEEP DOING IT? MAYBE IT'S YOU THAT'S GOT IT WRONG?

THE "GUILT" YOU SEE IS ACTUALLY STRESS PLUS FEAR OF YOU.

SOME DOGS FIGURE IT OUT DESPITE THIS METHOD, NEVER BECAUSE OF IT

IT TEACHES ME TONS ABOUT FEARING YOU, BUT NOTHING ABOUT POOPING OUTSIDE!
